BNIA/Census Bureau Community Statistical Area Data
Based On Averages For 2009 - 2013

	Unemployment Rate		Median Household Income
Baltimore City Overall	14.2%		$ 41,385
Lowest...	3.5%	Highest...	$ 106,771
Highest...	29.0%	Lowest...	$ 13,887

The "Unemployment Rate" is the percentage of people in the labor force 16 - 64 years old who are unemployed and looking for work. BNIA stands for Baltimore Neighborhood Indicators Alliance. Their website is BNIAJFI.org. BNIA data is based on American Community Survey data collected by the Census Bureau.

Maryland LAUS (Local Area Unemployment Statistics)
2013 Unemployment Rates

LAUS data is collected by the Bureau of Labor Statistics. BLS estimates are based on the Census Bureau's Current Population Survey and do not include people who are unemployed and would like to work, but who have given up searching for jobs.
