

**Please ask Councilman Jones
to introduce legislation – as soon as possible!
– that limits the size of individual stores on the
Owings Mills Mall property to 60,000 SF.**

This limit is consistent with the current
Kimco site plan for the property.

More importantly, a reasonable store size limit
prevents Kimco from anchoring its Mall property
with a new Walmart Supercenter.

**A new Supercenter on the Mall property will
result in the closing of the Liberty Road
Walmart Supercenter and the Reisterstown
Road Walmart – and quite possibly many other
smaller businesses that depend upon the
traffic these Walmarts help generate.**

Kimco has every right to make a profit,
just not at the expense of established
retail centers in our community.

Kimco needs to come up with a better
plan for its Mall property – **a plan that doesn't
include a new Walmart Supercenter.**

If Kimco anchors its Owings Mills Town Center with a new Walmart Supercenter,

Walmart is going to close both its Liberty Road Supercenter and its store on Reisterstown Road.

"Dark Stores" are bad for our local economy and families.

We can avoid the **"urban blight"** that results when Walmart closes stores.

Please voice your concerns to Councilman Julian Jones.

And be sure to go to www.BaltimoreRising.org to **sign the petition** for Councilman Jones that will help make sure Kimco's new Owings Mills Town Center will benefit all families and businesses throughout our community.

Thank you!
